Disinfection with perfection!

the touchless hand disinfection unit!

Mains or rechargeable battery operated

permanent mains or rechargeable battery operated (flexible positioning), stand by time approx. 6 weeks. Optical signal before power shut down.

No maintenance

Door release NEW

Optional connection for signal operated door release.

Sensor

When putting ones hands into the opening the sensor releases one application with the specific dosage.

Dosage

Application specific dosage setting in 10 levels from 0,5 ml to 5 ml.

Wide opening

For touchless disinfection of **both** hands at the same time. Excess liquid cannot harm floor or working surfaces.

Compatibility

Works with all known disinfection liquids (0,5 & 1,0 litre containers).

Spraying

Covers both hands equally with disinfection liquid. No nebulizing, therefore no aerosol vapours.

Collecting dish

With absorbing pad. Excess liquid will be captured and enclosed.

Optional: Counter

Operation/application counter, for monitoring dosage as well as amount of applications

DIN charging connection

To connect to the mains with enclosed charger.

 Steripower®
